SUMMARY

User Experience / Product Designer bridging research, interaction design, and front-end development to create accessible, responsive digital products. Applies WCAG-aligned accessibility principles and AI-supported design and development workflows to improve usability, clarity, and inclusivity across key user flows. Collaborates closely with cross-functional teams to translate user insights and product requirements into thoughtfully iterated design solutions.

EDUCATION

Birmingham City University - Birmingham, UK **Jan 2025 - Jan 2026**
MSc User Experience Design

Jönköping University - Jönköping, Sweden **Aug 2021 - Jun 2024**
BSc Graphics Design and Web Development

EXPERIENCE

6th Generation Capital Ltd - United Kingdom **Jun 2025 - Present**
User Experience Designer

- Identified friction and clarity issues across core product areas and redesigned key user flows and layouts, resulting in clearer navigation and improved task completion across key user journeys.
- Shaped final product implementations by balancing user needs, accessibility requirements, and technical constraints, influencing UX decisions across multiple shipped features.
- Introduced and maintained shared UI patterns and component standards, reducing inconsistent interfaces and minimising repeated design and development rework across product areas.
- Integrated accessibility-aware interaction patterns and visual hierarchy into default UI designs, reducing accessibility issues raised during internal reviews and improving usability for diverse users.
- Leveraged AI-assisted tools to accelerate design exploration, content structuring, and interaction refinement, enabling faster iteration while maintaining accessibility and usability standards.

Northvolt Ett - Skellefteå, Sweden **Jun 2024 - Dec 2024**
Process Operator

- Increased process output by 15% through lean documentation using value stream mapping and 5S methodology, establishing iterative feedback loops.
- Streamlined process workflows, resulting in a 25% reduction in cycle time by analysing existing workflows and implementing improvements to reduce cycle time and waste.

Lynkrr AB - Göteborg, Sweden **Mar 2023 - Jun 2023**
UX/UI Design Intern

- Worked with developers and product managers to create and test web prototypes used by over 1000 users, increasing onboarding completion by 25%.
- Gathered insights from 20+ user interviews and 4 competitor reviews to refine design direction.
- Optimised onboarding flows with animated micro interactions that boosted engagement metrics by 30%.

Freelance (Part-time) - Sweden **Aug 2021 - Jan 2025**

UX/UI Designer

- Designed and shipped accessible, responsive websites across retail, education, and service sectors, reducing bounce rates by 35%.
- Led usability studies with 30+ participants to implement changes that improved task success by 40%.
- Applied WCAG 2.2 principles and conducted screen reader audits to ensure inclusive interactions.
- Engineered high-performance websites in React, Webflow, and WordPress, achieving load times under 2.5 seconds.
- Integrated AI-assisted workflows into design and front-end development processes, supporting rapid prototyping, content refinement, and code scaffolding while ensuring WCAG-compliant outputs.

Univelcity - Lagos, Nigeria **Jan 2021 - May 2021**

UX/UI Design Intern

- Developed wireframes and low-fidelity prototypes, contributing to a projected 15% reduction in onboarding friction.
- Created style guides and documentation, improving design handoff efficiency by 10%.
- Gained hands-on experience with Figma, Adobe XD, and usability testing methodologies.

PROJECTS

- **YuSign - Accessible Sign Language Learning App:** Designed an accessibility-first design strategy from the outset, resulting in an inclusive user experience with a SUS score of 88, rated "Excellent."
- **BuffBuddy - Fitness App for Introverts:** Enhanced user confidence by integrating emotional UX strategies, resulting in a usability improvement from 60% to 85%.
- **Immerseum - AR Museum Experience:** Engineered an adaptive AR solution that tailored exhibit content to individual visitor interests, enriching the museum experience and boosting engagement metrics by over 40%.

SKILLS

- **UX Design:** User Research, Wireframing, Prototypes, Interaction Design, User Flows, Usability Testing, A/B Testing, User Interviews, Accessibility (WCAG 2.2), Mobile UX Design, Web UX Design.
- **UI Design:** Visual Interface Design, Design Systems, Typography, Micro-interactions, Style Guides, Motion Graphics.
- **Tools:** Figma, Adobe Illustrator, After Effects, Adobe InDesign, Premiere Pro, Framer, WordPress.
- **Front-End**: HTML, CSS, JavaScript, React, Bootstrap.
- **Research:** User Research Planning, Qualitative Research Methods, Quantitative Research Methods, Data Analysis & Synthesis, Research Communication.
- **AI & Automation:** AI-assisted design and development workflows (ideation, prototyping support, content refinement, code scaffolding)

AWARDS

- Audience Favourite for thesis work on accessibility in low-code/no-code development.

PUBLICATIONS

- **Accessible Low-Code No-Code Development:** Analysing the Accessibility of Websites Built with Low-Code and No-Code Technologies in the Citizen Developer Context.
